

Frameline Plus

Architectural LED Bollard

DESCRIPTION

Frameline Plus is a contemporary architectural bollard with concealed indirect illumination that eliminates direct view of the LED source. Its clean profile provides uniform, low-glare pathway lighting while supporting safety and wayfinding in modern outdoor environments.

KEY FEATURES

- Concealed LED source for improved visual comfort
- Smooth, uniform indirect illumination
- Durable aluminum body with PC diffuser
- Outdoor-rated dark grey powder-coated finish
- Available in 650 mm and 1000 mm heights
- Optional PIR motion sensor and ground spike kits
- Optional wood panel finish

POWER
10W

OUTPUT
500 lm

VOLTAGE
12V AC

CCT
3000K

RATING
IP65

LIFE
50K hrs
