

Frameline Plus

Description:

The Frameline Plus is a contemporary architectural bollard featuring an indirect lighting design that eliminates direct view of the light source, providing exceptional visual comfort and a clean, sophisticated appearance. The concealed LED light engine delivers smooth, uniform illumination while reducing glare, making it ideal for pedestrian pathways and landscape applications. Constructed from durable aluminum with a premium outdoor-rated powder-coated finish, Frameline Plus is designed to withstand demanding outdoor environments while complementing modern architectural settings. Its minimalist profile and concealed light source create a refined lighting effect that enhances safety, wayfinding, and the overall aesthetic of outdoor spaces.
